Jim

I wanted to provide you an update on where things are with the 2,4-D ESA for this phase. Looks like we need another 2 weeks to wrap this up completely.

Deliberative

It's not possible to have that write-up this week. We still have to synthesize the results.

Hi Ed,

Stopped by your desk, but missed you.

Can you please give me an update on where you are with the 2,4-D ESA? Sujatha needs to let management know this afternoon. We're hoping it is possible for you to have a draft of the assessment (minus the aquatic habitat descriptions that Nathan still has to do) tomorrow some time.

Deliberative

Deliberative

Please let me know the status of things before noon, if possible (you can drop by, if that's easier).

Thank you!

Meghan
